

# Water Stop Iron – Electric Heating Tool

Scan QR Code to Visit Our Website

Water Stop Iron is a professional electric heating tool designed for sealing and cutting PVC water stop strips and synthetic materials. The 500 mm stainless steel blade provides clean, precise and fully sealed cutting edges for construction and waterproofing applications.

Voltage	220-240V AC / 50-60Hz
Power	150W – 300W
Blade Material	Stainless Steel
Blade Length	500 mm
Max Temperature	Up to 500°C
Heating System	Direct Electric Resistance
Handle	Heat-Resistant Anti-Slip Rubber Grip
Cable Length	1.5 – 2 meters
Plug Type	European Standard Plug
Weight	Approx. 1 – 1.5 kg
Applications	PVC Water Stop, Waterproofing, Foam, Plastic
