

PURIN 401 – Polyurethane Gel Injection Resin

Scan QR Code to Visit Our Website

PURIN 401 is a two-component polyurethane gel injection resin designed for waterproofing expansion joints, cold joints, and moving cracks. After mixing, it forms a flexible elastic gel with excellent elongation and long-term water sealing performance.

Technical Specifications

Product Code	PURIN 401
Type	Two-Component PU Gel Injection Resin
Mixing Ratio	1 : 1 by Weight
Final Material	Flexible Elastic Gel
Elongation	High – Suitable for Moving Joints
Viscosity	Low – High Penetration
Application	Cold Joint & Expansion Joint Sealing
Injection Method	Two-Component Injection Pump
Packaging	20 Kg Component A + 22 Kg Component B
